

Your documents finally answer back.

Self-hosted AI document intelligence for Gulf enterprises. Ask, see, and speak to your documents — every answer cited, every PII masked, every action auditable.

CAPABILITIES

Ask

Conversational Q&A with page-level citations. Every answer links to the exact source.

See

Search your archive with a photograph. Image-to-image similarity with detected-content labels.

Speak

Arabic-first voice interaction. Full RTL rendering. Voice-driven document navigation.

Trust

Tamper-evident audit chain. PII lineage tracking. Provenance graph for every answer.

HOW SEEKRA COMPARES
